

BRISBANE TRUCK CENTRE

Our passion is your vehicle.

SALES | SERVICE | PARTS

**DENNIS
EAGLE**

Welcome to Brisbane Truck Centre.

A truck is more than just a vehicle. It is one of your business' most important assets. Whether you are a sole operator or responsible for a fleet, when it comes to trucks, you can't afford to take any chances.

At Brisbane Truck Centre we have the experience and infrastructure to ensure every detail of your requirements are met. From purchase to customisation, maintenance, parts and repairs, we can guide you step by step through every aspect of truck ownership. It's our years in the industry that make a difference.

Our recently renovated facilities in Rocklea house an expanse of equipment and services under one roof. With over 50 highly trained staff covering the areas of truck and parts sales, repairs and maintenance, you can be sure to receive informed, knowledgeable advice and timely service every time you visit. Many of our team come from backgrounds of driving or managing fleets. We know our products inside and out, so we know we can deliver on our promise.

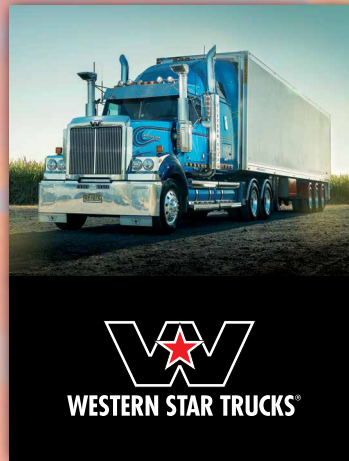

We know trucks inside and out.

Driven by a commitment to world-class service and on-going innovation, and backed by a deep understanding of Australia's world renowned transport industry, Brisbane Truck Centre has firmly established itself as the largest dealer of Western Star Trucks in the country. Next to US powerhouse Western Star, we proudly represent European brands MAN and Dennis Eagle in Australia – enabling us to offer you the widest range of vehicles at the best prices.

MAN is one of Europe's foremost manufacturers of cab-over trucks, and one of the oldest truck companies in existence. In partnership with Rudolf Diesel in the early 1900's, MAN developed the very first diesel engine. This tradition of innovation has continued ever since. Brisbane Truck Centre are proud to stock the complete MAN range of trucks, including the heavy duty MAN TGA, and the medium duty MAN TGM. These advanced vehicles are the product of years of research and development.

Western Star is a name steeped in history, known the world over as the quintessential truck built for drivers. The story began in 1967 in Cleveland, Ohio, where a small company began building mining, logging and oil field heavy duty trucks. The trucks built a solid reputation due to their rugged durability, and before long the company grew to become one of America's leading truck manufacturers. Brisbane Truck Centre are proud to represent this esteemed brand in Australia, stocking the full range of vehicles from the 4800 Fleet to the mighty 6964FX.

With a reputation for world-class manufacturing and engineering, Dennis Eagle is a European market leader in refuse collection vehicles. Dennis Eagle's Australian vehicles are based on the Elite 2 chassis and have been adapted and further developed to ensure they meet Australian conditions. The Elite 2 is available in a wide variety of configurations, ensuring that any operator will benefit from the Elite 2s unique set of features and benefits.

Truck Sales

- Buying a new truck is a big decision, but we have the range and experience to make this process easy.
- Our rigorously trained salespeople know every detail of Western Star and MAN trucks and are backed by Sales Managers who monitor every aspect of each sale.
