

2012 Honda  
*Crosstour*

# unconventional by design

It's got all the utility of an SUV, but it's sleeker and more agile. It's got all the practicality of a sedan, but with a more aggressive and sporty stance. We call it the Crosstour. And with a 271-hp V-6 engine, available Real Time 4WD,<sup>™</sup> versatility and loads of luxury, the Crosstour has a character and presence all its own.

call it  
well rounded  
un squared  
or simply sleek

The Crosstour is different because we designed it that way. Look at its lines, and it could be called a sports sedan. Pack it full of gear, and it's a utility vehicle of sorts! Drive it, and any remaining questions are instantly answered.

The distinctively streamlined shape should give you a hint. Go for a spin, and the 271-hp V-6, independent suspension and confident cornering fully reveal the Crosstour's sporty nature.

Crosstour 4WD EX-L shown in Basque Red Pearl II.

# sporty is more than a shape, it's a purpose

Powerful, versatile, capable and remarkably fun to drive, the Crosstour offers more than than a little bit of everything. So if you've been thinking you can't have it all, think again.

A double wishbone front and multi-link rear suspension offer predictable handling and a smooth ride. The front shocks feature a specially designed rebound spring within the shock tube that enhances front tire contact with the road when cornering.

The available Real Time 4WD system provides added confidence when the weather takes a turn. When traveling down practically any low-traction surface, the system can detect a loss of traction. It can then automatically send power to the rear wheels to help keep you on course and underway.

Under the hood, you'll find performance with brainpower. The Crosstour's 271-hp, 3.5-liter, SOHC V-6 provides smooth, effortless acceleration. And Variable Cylinder Management™ (VCM<sup>1</sup>) helps boost your efficiency.<sup>2</sup>

VCM can activate and deactivate the engine's cylinders as needed, so you enjoy brisk acceleration while also maximizing fuel efficiency.<sup>2</sup> And the transitions between modes are seamless to the driver.

Even though the Crosstour has a high, commanding presence, its center of gravity is notably low. Honda engineers achieved this by placing the engine, transmission and fuel tank as low as possible in the chassis. The results can be felt in how well the Crosstour handles.

The Crosstour is able to sense when it is in a turn, and its transmission will hold a gear accordingly for enhanced performance.

Crosstour 4WD EX-L shown in Basque Red Pearl II.

Rear passengers get plenty of room, their own rear vents and a flip-down center armrest.

From the driver's elevated, commanding point of view, there is no question the Crosstour is a special kind of vehicle.

Standard dual-zone climate control lets front passengers select their own temperature settings.

# more than one way to make space

The style of a sedan with the utility of an SUV. It's a novel concept. The Crosstour fits the bill perfectly. Its tailgate opens to reveal an ample cargo area offering more than 51 cubic feet of space.<sup>1</sup>

EX-L and above models feature heated front seats, keeping passengers and drivers warm and content on cold days.

Crosstour EX-L shown with Black Leather and available Honda Satellite-Linked Navigation System.<sup>TM3</sup>

The removable, water-resistant under-floor storage box is highly versatile. Keep valuable items out of sight. Carry a set of tools. Store a first-aid kit. It's up to you.

If you want to protect the cargo floor's high-quality carpeting, simply flip the floor panels over for a more easy-to-clean surface.

Need to make more room? The 60/40 split rear seatback can be folded down from the rear doors or from the cargo area.

With the rear seatback folded down, you'll have a full 51.3 cubic feet of cargo space at your disposal, allowing you to carry a wide array of bulky items.<sup>1</sup>

# expect nothing less than brilliance

Active Sound Control helps cancel out unwanted noise entering the cabin.

Sit in the lap of luxury. EX-L models and above feature leather trim on the steering wheel, shift knob and the wide, adjustable seats.

Begin by taking command of an enveloping 360-watt audio system. All models feature the USB Audio Interface<sup>4</sup> and *Bluetooth*<sup>5</sup> HandsFreeLink<sup>®</sup>, which easily interfaces with your compatible mobile phone.\* Welcome to the cutting edge of Honda high tech.

The Crosstour is all about convenience, even in reverse. For 2012, all models come with a rearview camera. Once you shift the Crosstour into "drive," the optional Honda Satellite-Linked Navigation System<sup>3</sup> is your personal tour guide. With it, you can access a vast database of maps, points of interest and even Zagat<sup>®6</sup> restaurant ratings and reviews.<sup>†</sup>

\*Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

<sup>†</sup>Some roads unverified. Please see your Honda dealer for details.

# safety is our mission

At Honda, our safety engineering emphasizes systems to help protect you, and even help you avoid collisions. Making advanced safety features standard is more than a goal. It's a philosophy.

All five passengers benefit from 3-point seat belts. And the front seat belts are equipped with an automatic tensioning system that will tighten in a moderate-to-severe frontal impact.

The Crosstour's standard front, front side and side curtain airbags\* can help reduce the likelihood of injuries in a collision. The side curtain airbags also feature a rollover sensor. The front passenger's side airbag uses the Occupant Position Detection System (OPDS) to help prevent deployment if a child or small-statured passenger is out of position and in the airbag's path of deployment.

Outboard rear seats have the LATCH (Lower Anchors and Tethers for Children) child-restraint system.

The Crosstour has an Advanced Compatibility Engineering™ (ACE™) body structure. This Honda-exclusive design enhances occupant protection and crash compatibility in frontal collisions. By dispersing crash energy more evenly throughout the front of the vehicle, less force is transmitted to the passenger compartment.

To help reduce the likelihood of whiplash injuries, the front seats have active head restraints. They move up and forward in a sufficient rear collision.

Brake Assist, a component of the anti-lock braking system (ABS), helps apply full braking force in some emergency situations. Electronic Brake Distribution (EBD) helps balance braking forces, depending upon dynamic loading.

The Tire Pressure Monitoring System (TPMS)<sup>7</sup> will notify the driver when air pressure is significantly low.

During oversteer or understeer, Vehicle Stability Assist™ (VSA)<sup>†</sup> can brake individual wheels and/or reduce engine power to help restore your intended course.

Airbags inflated for display purposes.  
\*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.  
†VSA is not a substitute for safe driving. It cannot correct the vehicle's course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.

All 2012 Honda vehicles—and any Honda Genuine Accessories installed at the time of vehicle purchase—are covered by the 3-year/36,000-mile New-Vehicle Limited Warranty.<sup>12</sup> Plus, Honda cars and trucks are covered by a 5-year/60,000-mile Limited Powertrain Warranty,<sup>12</sup> too. For more information or assistance, see your Honda dealer or please give us a call at 1-800-33-Honda.

Manufactured to the same strict standards as Honda vehicles, Honda Genuine Accessories are the perfect way to personalize and protect your vehicle. Please see your Honda dealer for details.

Whether you buy or lease a Honda vehicle, Honda Financial Services can assist you with the process. Please ask your dealer which lease or purchase plan best suits your needs.

Honda Care® is an affordable, comprehensive vehicle and travel protection plan backed by Honda reliability, service and parts. Please see your Honda dealer for details.

<sup>1</sup> Carrying too much cargo or improperly storing it can affect the handling, stability and operation of this vehicle. Before carrying any cargo, be sure to consult the owner's manual for load limits and loading guidelines. <sup>2</sup> 18 city/27 highway/21 combined mpg for Crosstour 4WD EX-L models. Based on 2012 EPA mileage estimates. Use for comparison purposes only. Do not compare to models before 2008. Your actual mileage will vary depending on how you drive and maintain your vehicle. <sup>3</sup> The Honda Satellite-Linked Navigation System is available on EX-L models in the United States, except Alaska. Please see your Honda dealer for details. <sup>4</sup> The USB Audio Interface is used for direct connection to and control of some current digital audio players and other USB devices that contain MP3, WMA or AAC music files. Some USB devices with security software and digital rights-protected files may not work. Please see your Honda dealer for details. <sup>5</sup> The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc., and any use of such marks by Honda Motor Co., Ltd., is under license. <sup>6</sup> ©2011 Zagat Survey® LLC. Zagat Survey is a registered trademark of Zagat Survey, LLC. <sup>7</sup> For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. Please see your Honda dealer for details. <sup>8</sup> ULEV-2 (Ultra-Low-Emission Vehicle) models as certified by the California Air Resources Board (CARB). <sup>9</sup> HomeLink and the HomeLink house are registered trademarks of Johnson Controls®. <sup>10</sup> XM services require a subscription after 90-day trial period. Subscriptions governed by SiriusXM Customer Agreement, see www.siriusxm.com. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically be renewed and you will be billed at then-current rates until you call XM at 1-800-967-2346 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. ©2011 Sirius XM Radio Inc. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. and its subsidiaries. <sup>11</sup> Windows Media® is a trademark or registered trademark of Microsoft Corporation in the United States and/or other countries. <sup>12</sup> 3-Year/36,000-Mile Limited Warranty. 5-Year/60,000-Mile Limited Powertrain Warranty. Ordinary maintenance or adjustments, parts subject to normal wear and replacement, and certain items are excluded. Please see your Honda dealer for details. **Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in the rear seat.** Specifications, features, illustrations and equipment shown in this brochure are based upon the latest available information at the time of printing.
