

Nissan Titan King Cab PRO-4X shown in Red Alert.

PRINTED EXCLUSIVELY FOR

LEah RO

2012 NISSAN TITAN®

INNOVATION THAT'S TOUGH. INNOVATION FOR ALL. Nissan's full-size truck is powered by a standard 5.6-liter V8 churning out 317 hp and 385 lb-ft of torque, giving you the brute strength to pull up to 9,500 lbs.¹ of just about anything. But there's more to Titan than power. A lot more. The available SV Sport Appearance Package adds rugged, stylish and useful features inside and out. The innovative Utili-track® Channel System includes tie-down cleats you can position where you need them most. A burly, fully boxed all-steel frame delivers greater load-bearing ability and improved ride quality. Not to mention its Active Brake Limited Slip (ABLS) and available switch-on-demand electronic locking rear differential for more confident traction. Titan is available as a King Cab, with revolutionary Wide Open rear doors that open a full 168°, or Crew Cab. See for yourself why size matters. Ask for a test-drive today.

¹King Cab SV 4x2 with Premium Utility Package. See Nissan Towing Guide and Owner's Manual for proper use.

¹The optional Rear Sonar System is a convenience, but is not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The Rear Sonar System may not detect every object behind you. ²Driving is serious business and requires your full attention. Do not operate any devices connected to the auxiliary audio input jack while driving. ³Required XM Radio monthly subscription sold separately. Subscription governed by XM Customer Agreement at xmradio.com/service terms. For more information, see www.xmradio.com. ⁴VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. * The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license.

This is not a complete list of packages. Please see your Nissan salesperson for a listing of all available packages and package requirements.

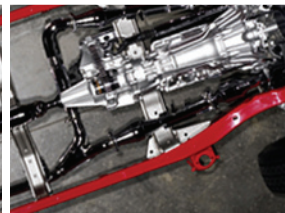

< A standard 317-horsepower 5.6-liter V8 churns out 385 lb-ft of torque to pull up to 9,500 lbs. of just about anything.³

> Configure even the most complex, cumbersome loads. The bed has more usable cargo space and load-carrying versatility than the average half-ton, thanks to five C-channel rails running the length of the bed's floor and walls.

< The 5-speed automatic transmission features gear ratios that can take full advantage of its massive low-end torque and optimize fuel economy in higher gears.

> For heavy-duty hauling and towing, the steel-reinforced ladder frame is made with full-length box-section rails enclosed on four sides.

¹The optional Rear Sonar System is a convenience, but is not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The Rear Sonar System may not detect every object behind you. ² Required XM Radio monthly subscription sold separately. Subscription governed by XM Customer Agreement at xmradio.com/ service terms.
