PREVENTATIVE MAINTENANCE PLANS

FREIGHTLINER® AND WESTERN STAR® PREVENTIVE MAINTENANCE PLANS

At Premier Truck Group keeping your truck on the road and your business moving is our greatest priority. Freightliner® and Western Star® Preventive Maintenance Plans are designed to prevent downtime and costly repairs through regular maintenance and inspections.

Preventive Maintenance Plans are designed with scalability in mind to meet your needs. Your choice ranges from basic oil and lube coverage to the industry's most comprehensive of maintenance plans. Our Level 3 coverage even gives you the option to add on individual services to build your ideal protection plan. Transmission and Aftertreatment Maintenance Plans can be added to any level of Preventive Maintenance or be purchased as standalone maintenance plans.

Service scheduling is best coordinated by contacting your selling Freightliner/Western Star Dealer. By maintaining your truck at recommended intervals and using factory trained technicians, you will keep your vehicle in peak operating condition and prevent costly downtime.

Aftertreatment Preventive Maintenance Plan**			

* Services included in Freightliner/Western Star Preventive Maintenance Plans are based on the Freightliner/Western Star and Detroit Powertrain factory recommendations. Freightliner/Western Star Preventive Maintenance Plans may not include every maintenance and inspection necessary as required in the specific maintenance manual provided with your truck documentation. Service intervals are determined by mileage or elapsed time. The Schedule of Services is determined by the operational duty cycle and class of the truck. Only service stated on the Schedule of Services will be completed. Any missed or remaining maintenance services will not be performed beyond the customer's contractual time/distance period. Additional service will be the responsibility of the customer. Chassis lubrication will only be completed during a qualifying oil change service event.

**The Aftertreatment Maintenance Plan is only available for DDC Engines.
