

2013 Honda

RIDGELINE

Take it places other pickup trucks can't go. Like a gallery opening.

Of course a pickup truck has to be tough, rugged and powerful. But why stop there? It ought to have a few more tricks up its sleeve. That's why we built a tough, rugged, powerful pickup that also has brains, style and sophistication. We gave it a closed-box frame and a striking Sport Trim, and we packed it with innovative features like a lockable In-Bed Trunk,[®] rearview camera and *Bluetooth*[™] HandsFreeLink[®] (RTL with navigation[†]), just to name a few. The result? We transformed a vehicle that's been known for its utility into one famous for its versatility. The Honda Ridgeline.

We thought of everything, so you can do almost anything.

The name of the game is options. The Ridgeline has a large, hidden lockable In-Bed Trunk, and an innovative cargo bed that can be configured many different ways, so you can haul a lot more than you're used to. And whether you're on pavement or dirt, the 250-hp engine, independent suspension and sophisticated 4WD system get you there with power and grace.

The lockable In-Bed Trunk keeps gear secure and out of sight. Its weather-tight, 8.5-cubic-foot capacity can accommodate large items, like golf clubs and coolers.³

Ridgeline's cargo bed can handle just about anything you need to haul. And its sturdy tailgate and available bed extender give you even more space to work with.

The dual-action tailgate opens down like a typical truck, but it also swings out to the side, so you'll have easy access to your cargo and In-Bed Trunk.

Honda reminds you to properly secure items stored in the cargo area.

Ridgeline RTL shown in Crystal Black Pearl with accessory towing kit and hitch ball.*

Lockable In-Bed Trunk.

It's officially OK
for a truck
to be this
comfortable.

Ridgeline RTL shown with Gray Leather and available Honda Satellite-Linked Navigation System.^{TM2}

Sit back, enjoy the ride and leave the hard work to the truck. The Ridgeline's unique body design creates a wider, deeper cabin with plenty of room for five adults. And the smart details and high-tech touches throughout win over even the staunchest pickup purists. The steering-wheel design features integrated buttons for the cruise control, stereo system and available *Bluetooth*[®] HandsFreeLink. The available dual-zone automatic climate control system and heated front seats are also really easy to get used to.

The thoughtfully designed interior puts everything right where it should be, like the center console with multiple storage compartments and a 115-volt power outlet (RTL). The available Honda Satellite-Linked Navigation System² with voice recognition always has your coordinates front and center. Shift into reverse and the same screen serves as a rearview camera display (RTL with Navigation). All other models include a rearview camera display built into the rearview mirror.

We've earned our stripes in safety.

With all the work we've put into Ridgeline, we're most proud of our accomplishments in safety. From its reinforced, rigid unit body and six standard airbags to its sophisticated stability systems, the Ridgeline is serious about safety. And no matter which Ridgeline you choose, you'll be glad to know that each and every safety feature comes standard.

Ridgeline RTL shown in Polished Metal Metallic with available Honda Satellite-Linked Navigation System.*

Airbags inflated for display purposes.

The Ridgeline's first line of defense is a reinforced unit body that incorporates a closed-box frame with internal high-strength steel frame stiffeners. Both the frame rails and all seven crossmembers feature box-section construction. The result is a remarkably high torsional rigidity.

Vehicle Stability Assist™ (VSA®)* with traction control can detect understeer or oversteer and reduce the amount of engine torque and/or use the vehicle's ABS system to brake individual wheels as needed to help restore your intended course.

Brake Assist, a component of the anti-lock braking system (ABS), helps apply full braking force in some emergency situations. Electronic Brake Distribution (EBD) helps balance braking forces depending upon dynamic loading.

The Ridgeline's standard Tire Pressure Monitoring System (TPMS)† continually checks the pressure of each tire, alerting the driver with an in-dash display when a particular tire's pressure is significantly low.

Front, front side and side curtain airbags are all standard. The front seats feature active head restraints that are designed to move up and forward in a rear collision to help reduce the likelihood of neck injury.†

*VSA is not a substitute for safe driving. It cannot correct the vehicle's course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.
†Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

ENGINEERING

3.5-Liter, 24-Valve, SOHC VTEC® V-6 Engine
 250 hp @ 5700 rpm (SAE net)
 247 lb-ft @ 4300 rpm (SAE net)

Whether you wish to buy or lease a Honda vehicle, Honda Financial Services can assist you with the process. Please ask your dealer which lease or purchase plan best suits your needs.

GENUINE ACCESSORIES

Manufactured to the same strict standards as Honda vehicles, Honda Genuine Accessories are the perfect way to personalize and protect your vehicle. Please see your Honda dealer for details.

Honda Care® is an affordable, comprehensive vehicle and travel protection plan backed by Honda reliability, service and parts. Please see your Honda dealer for details.

All 2013 Honda vehicles – and any Honda Genuine Accessories installed at the time of vehicle purchase – are covered by a 3-year/36,000-mile limited warranty.¹¹ Plus, Honda cars and trucks are covered by a 5-year/60,000-mile Limited Powertrain Warranty,¹¹ too. For more information or assistance, see your Honda dealer or please give us a call at 1-800-33-Honda.

¹The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc., and any use of such marks by Honda Motor Co., Ltd., is under license. ²The Honda Satellite-Linked Navigation System is available on RTL models in the United States, except Alaska. Please see your Honda dealer for details. ³Carrying too much cargo or improperly storing it can affect the handling, stability and operation of this vehicle. Before carrying any cargo, be sure to consult the owner's manual for load limits and loading guidelines. ⁴Towing requires the addition of the Honda accessory towing kit, trailer harness and hitch ball. Trailer harness standard on RTS and RTL models. Premium unleaded fuel recommended when towing. Please see your Honda dealer for details. ⁵For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. Please see your Honda dealer for details. ⁶ULEV-2 (Ultra-Low-Emission Vehicle) models as certified by the California Air Resources Board (CARB). ⁷15 city/21 highway/17 combined mpg rating. Based on 2013 EPA mileage ratings. Use for comparison purposes only.
