

Sienna 2013

XLE shown in Salsa Red Pearl with available accessory roof rack cross bars.

Family life can keep you on the go. Luckily, there's a vehicle that can help you keep up. Meet the Toyota Sienna. The minivan that's designed for parents as much as it is for kids. With its wide stance and streamlined profile, it looks — and handles — more like a performance car and less like a people mover. With Sienna's efficient 3.5L V6 engine, you'll have the power to take the fast lane, without having to take the kids' allowance to pay for gas. Inside, it's a model of space and versatility. And it's loaded with advanced technology that will impress the little ones without frustrating the grown-ups. Plus, it's assembled in America, with some of the highest levels of North American content in the segment.¹ **Toyota Sienna.**

Each growing family has unique needs when it comes to the family vehicle. Happily, the Toyota Sienna is unique in its ability to meet the particular needs of most families.

Introduce your family to ours.

Every family is unique. That's why we offer so many different versions of Sienna. All told, there are five models to choose from: L, LE, SE, XLE and Limited. There's one thing, however, that all Siennas have in common: the efficiency and power of a 3.5L V6 engine. And for an added measure of confidence, you can go with available All-Wheel Drive (AWD).

SE

From its unique front and rear bumpers and sport mesh grille to its 19-in. gunmetal-finished alloy wheels and smoked sport-trimmed LED taillights, Sienna SE takes its design cues from sports sedans, not minivans.

SE shown in Silver Sky Metallic with available power tilt/slide moonroof. 2012 model shown.

LIMITED

Among Sienna Limited's many standard features are leather-trimmed seating surfaces, dual moonroof, Smart Key System¹, front and rear parking assist sonar and a sliding center console. It's also available with a Dual-View Entertainment Center², Panorama Camera³, Dynamic Radar Cruise Control (DRCC)⁴, rain-sensing windshield wipers, and High Intensity Discharge (HID) headlights with an Automatic High Beam⁵ feature.

Limited FWD shown in Predawn Gray Mica with available Premium Package, Convenience Package and Advanced Technology Package. 2012 model shown.

Who says parenting requires sacrifice?

You knew Sienna would be loaded with space and versatility, but it's also loaded with style and technology. Notice the available wood-grain-style accents. Or the carbon fiber-style trim of Sienna SE. And when it comes to technology, Sienna is available with Display Navigation¹ with Entune.² Entune[®] is a collection of popular mobile applications and data services integrated with select Toyota vehicles. It includes three years of complimentary access to apps and data services delivered via most smartphones and some feature phones.

SE interior shown in Dark Charcoal with available Display Navigation with Entune[®] and Blind Spot Monitor (BSM)³ with Rear Cross-Traffic Alert (RCTA)⁴

180-degree wide-angle view

AVAILABLE PANORAMA CAMERA*

When Sienna is in Reverse, the area behind the vehicle that's visible to the camera is displayed on the DVD navigation screen. Choose either a 180-degree wide-angle view or a regular view, and see the image in any of three modes: Projected Path, Parking Assist, or Distance Guide.

Regular view

No wonder the kids think they're celebrities.

You can't help but pamper your family with the 7-passenger Sienna Limited. A dual moonroof provides stellar views for all. Second-row lounge seating¹ features reclining captain's chairs with adjustable ottomans and armrests, climate controls and maplights. The seats slide up to 23 inches to add comfort and make using the dual power sliding side doors even easier. And an available Dual-View Entertainment Center² completes the picture. The kids are, after all, VIPs.

Dual Moonroof

On Sienna Limited, a standard dual moonroof creates an airy and open interior atmosphere. The front moonroof tilts open and slides over the roof, while the rear moonroof slides into the ceiling.

Dual-View Entertainment Center

The available Dual-View Entertainment Center, with its 16.4-in. LCD display, can be used in either single-screen or split-screen mode. On one side, play a DVD from the built-in DVD player; on the other, play a different movie or a video game using a compatible game console or DVD player plugged into the nearby 120V AC power outlet and RCA jacks. Plus, you can control the system by remote control or from the center instrument panel, and listen using Sienna's built-in speakers or wireless headphones.³

Lounge Seating

On Sienna XLE AWD and Limited, the second row features adjustable ottomans and armrests for both captain's chairs.

Power Split & Stow 3rd Row™ Seat

The power third-row seat in Sienna Limited FWD splits 60/40 to adapt to your needs. Just push two buttons, and the seat folds and retreats into the cargo area storage compartment — convenient if you're carrying lots of cargo.

Sliding Center Console

To serve the sliding second-row captain's chairs, the center console in Sienna XLE AWD and Limited expands and slides rearward. So cup holders stay within easy reach of the second-row passengers.

Power Split & Stow 3rd Row™ seat

Sliding center console

Dual power sliding side doors

Power liftgate

DUAL POWER SLIDING SIDE DOORS AND POWER LIFTGATE

Getting people or cargo into or out of Sienna is easy. The available dual power sliding side doors are operated with a button on the remote keyless entry or available Smart Key⁴ fobs, with switches on the overhead console and interior center pillar, or by pulling either of the door handles. The power liftgate on SE, XLE and Limited can also be operated with the remote keyless entry or Smart Key fobs, or with a switch on the overhead console. Both the sliding side doors and the liftgate offer jam protection.

VOICE-ACTIVATED TOUCH-SCREEN DVD NAVIGATION⁵

Featuring a large 7-in. display, this high-resolution navigation system features *Bluetooth*^{®6} wireless technology, a 10-speaker JBL[®] audio system, voice recognition, embedded points of interest, CD and MP3/WMA capability, a USB port⁷ and an auxiliary audio jack. For more information about our available audio systems, as well as *Bluetooth*[®]-compatible features, please contact your local Toyota dealer.

STORAGE SPACE

The cargo area behind the third-row seat offers a storage compartment deep enough to serve as a safe haven for valuable items you want stored. (Available accessory cargo organizers shown.)

STOWABLE CENTER PASSENGER SEAT

On 8-passenger models, the versatile center seat in the second row folds upright to form a comfortable seat. Or it can be removed and stored in its storage compartment, leaving captain's chairs and two additional cup holders.

XLE interior shown in Light Gray with available Premium Package. 2012 model shown.

Sextuplets? You're in luck.

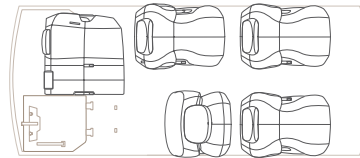

Depending on which of its many different seating arrangements you choose, the remarkably versatile Sienna can accommodate as many as eight people. Or, in the event you're transporting playpens, strollers and the like, it can be quickly configured to provide the ideal combination of passenger and cargo space. And there's plenty of head room, leg room and hip room for everyone — which means Sienna will still fit your family years after the kids have outgrown their car seats.

Cargo Space

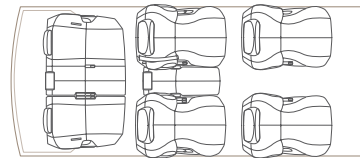

Sienna is loaded with packing possibilities. Depending on how you have the seats configured, your cargo volume can be anything from just over 39 cubic feet all the way up to 150 cubic feet!

Second-Row Tip-Up² and Long Slide

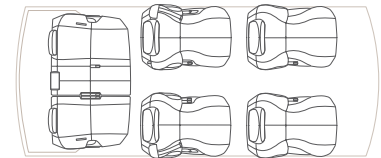

To make access to the third row a breeze, the second-row seat cushions tip up and the entire row slides forward. This function also makes seat removal easier and maximizes cargo space behind the second row.

7-PASSENGER SEATING
with tip-up and long-slide second row

8-PASSENGER SEATING
with tip-up and long-slide second row

7-PASSENGER LOUNGE SEATING³
with long-slide second row

Sienna's versatile interior is designed to give parents choices. Configure the seats for maximum occupancy or any combination of cargo and kids.

Maximum Seating Capacity

	FWD	AWD
L	7	–
LE, XLE	8	7
SE	8	–
Limited	7	7

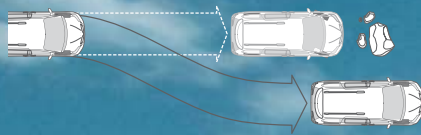

1. Cargo and load capacity limited by weight and distribution. 2. Tip-up feature not available on XLE AWD and Limited models. 3. See footnote 17 in Disclosures section.

We've taken an active interest in your family.

Every new Toyota is equipped with the Star Safety System™, a suite of six active safety features designed to help keep you out of harm's way. The system includes Enhanced Vehicle Stability Control (VSC)¹, Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA)² and Smart Stop Technology (SST)³. What's more, Sienna's Vehicle Dynamics Integrated Management (VDIM)⁴ system, available on Limited FWD models, enhances the effectiveness of Sienna's Star Safety System™ by coordinating with various active safety features to anticipate potential trouble and react accordingly.

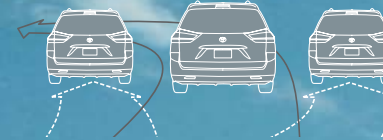

ANTI-LOCK BRAKE SYSTEM (ABS)

Possible Scenario

The Anti-lock Brake System helps avoid wheel lockup and helps maintain steering control during hard, straight-line braking or in slippery conditions. Enhanced Vehicle Stability Control utilizes Sienna's Electric Power Steering (EPS) and counteracts front or rear wheelslip during turns and braking to help restore driving control.

VEHICLE STABILITY CONTROL (VSC)

Possible Scenario

At Toyota, safety is one of our top priorities. That's why we equipped Sienna with an array of active safety systems, to help keep you out of harm's way, and passive safety systems, to help protect you should a collision occur.

**BLIND SPOT MONITOR (BSM)¹
WITH REAR CROSS-TRAFFIC
ALERT (RCTA)²**

The available Blind Spot Monitor (BSM) with Rear Cross-Traffic Alert (RCTA) helps you see vehicles that might be in your blind spot. When BSM detects a vehicle, it warns you with a flashing indicator light on the appropriate outside mirror. RCTA works in much the same way. When you slowly back out of a driveway or parking spot, it provides audible and visual indicators to warn you of approaching vehicles.

WET SURFACE

The Anti-lock Brake System modulates brake pressure when braking hard or when braking on a slippery surface, helping to avoid wheel lockup and maintain steering control.

MUDDY SURFACE

If the driver applies excessive pressure to the accelerator, Traction Control helps prevent wheel slippage on all kinds of surfaces.

GRAVEL SURFACE

No matter the surface of the road, standard Electronic Brake-force Distribution optimizes stopping power. The system's sensors read the vehicle load in Sienna and send the appropriate brake force to each wheel.

SLUSHY SURFACE

In winter conditions, every Sienna comes prepared. To compensate for a loss of traction while cornering, Sienna utilizes Enhanced Vehicle Stability Control.³ The system adjusts engine power, braking and steering torque-assist control to help the vehicle follow the direction in which it is being steered.

The standard of standard safety features.

Our commitment to your family's well-being doesn't end with the active safety features found in the Star Safety System.™ Should a collision occur, Sienna's comprehensive set of seven standard airbags¹ can help protect occupants in all three rows of seating. Sienna also offers a multitude of features, like available rain-sensing wipers, that you might not associate with safety but that can help ensure your overall peace of mind.

Front and Rear Parking Assist Sonar²

From locations within the front and rear bumpers, Sienna's available sonar gauges the area in a parking space to help the driver guide the vehicle into parking spots.

Rain-Sensing Windshield Wipers

Available on Sienna Limited, this feature uses a sensor to detect the amount of rainfall, then adjusts the wiper interval and speed automatically. So you can concentrate on the road, not the windshield.

Hill Start Assist Control (HAC)³

If you're at a stop on an uphill grade, available HAC helps prevent the vehicle from rolling backward as you switch from the brake to the accelerator. When activated, the feature holds the brakes for approximately three seconds as the driver switches from the brake pedal to the accelerator.

Pet Travel Safety

Toyota offers a wide range of available pet accessories designed to help you transport your furry companions in comfort and security. Ask your Toyota dealer for details.

COMPREHENSIVE AIRBAG SYSTEM

Sienna comes standard with a driver and front passenger Advanced Airbag System. In a frontal collision, the dual stage front airbag system senses impact severity while adjusting airbag deployment accordingly. Sienna also comes standard with a driver knee airbag, driver and front passenger seat-mounted side airbags, and side curtain airbags that cover the length of the cabin from the front seats to the third-row seats.

SEATBELTS

Sienna features a 3-point Emergency Locking Retractor (ELR) seatbelt for the driver's seat and Automatic/Emergency Locking Retractors (ALR/ELR) for all passenger belts.

SIDE-IMPACT DOOR BEAMS

Within each of Sienna's four doors are steel beams designed to help protect the occupants in the event of a side-impact collision.

LATCH

LATCH (Lower Anchors and Tethers for CHildren) provides an added measure of safety for smaller family members. LATCH includes lower anchors and tethers on outboard second-row seats and the center seat of the third row.

safetyconnect®

Via Toyota's 24/7 call center, available Safety Connect®¹ offers subscribers helpful features such as Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance and Automatic Collision Notification. Safety Connect® also offers the reliability of embedded cellular and GPS technology.

PRE-COLLISION SYSTEM (PCS)²

An available Pre-Collision System (PCS) employs radar to determine if a frontal collision is unavoidable and automatically applies the brakes and retracts the front seatbelts to help reduce the effects of a collision.

Photo not intended to replicate actual inflated airbags.

1. See footnote 22 in Disclosures section. 2. See footnote 30 in Disclosures section.

Yes. We are there yet.

There's no reason driving satisfaction and family comfort should be mutually exclusive values. That's the thinking behind the Toyota Sienna. It's why Sienna is engineered with a lightweight, rigid and aerodynamically optimized body for responsive handling. It comes standard with a 266-hp 3.5-liter V6 with a 6-speed Electronically Controlled automatic Transmission, gated shift lever and sequential shift mode. Plus, SE utilizes sport-tuned suspension and sport-calibrated Electric Power Steering for a more direct steering feel. It's performance-oriented engineering that even impatient kids can appreciate.

V6

All Sienna models come equipped with a 3.5-liter V6 engine. The Dual Overhead Cam (DOHC) 24-valve Dual VVT-i powerplant delivers 266 hp and 245 lb.-ft. of torque.

AWD

Sienna is the only minivan in its class that offers available All-Wheel Drive (AWD). The AWD system on Sienna utilizes active torque control. With an electromagnetically controlled coupling positioned at the front of the rear differential, this AWD system uses information sent from various sensors to transmit only the necessary amount of torque to the front and rear wheels.

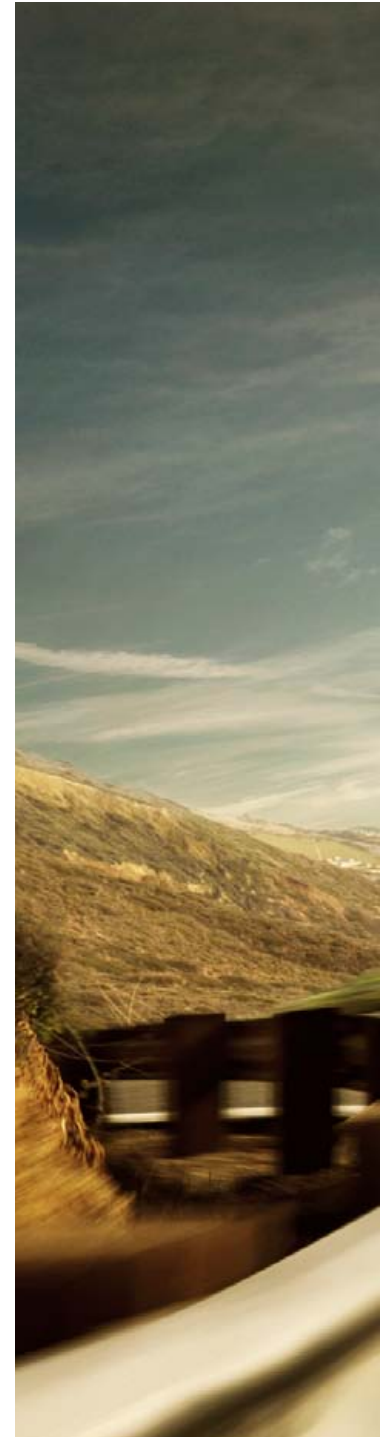

ECO DRIVING INDICATOR

The power of Sienna's V6 engine is bound to inspire some spirited driving in you. So, to help you drive more economically, the ECO Driving Indicator shows you when your right foot is, perhaps, too spirited. That way you can back off a bit to achieve better fuel economy.

Part of what helps Sienna perform so well is its streamlined shape. Its sides, profile and even its undercarriage have been crafted to help reduce drag, thereby enhancing efficiency.

MPG

Sienna offers an impressive mpg rating for a 7- or 8-passenger van. The efficiency is the product of Dual Variable Valve Timing with intelligence (VVT-i), a smooth-shifting 6-speed automatic transmission and refined aerodynamics.

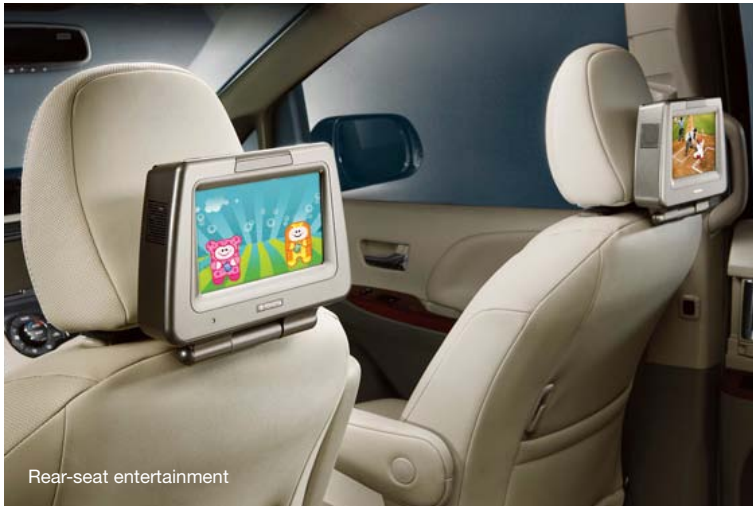

SE shown in Super White with available power tilt/slide moonroof. 2012 model shown.

Because no two families are alike.

A wide range of Genuine Toyota Accessories is available to help you make your Sienna your own. Considering how appealing Sienna is to begin with, these quality products will be like icing on the cake. Some accessories may not be available in all regions of the country. See your Toyota dealer for details.

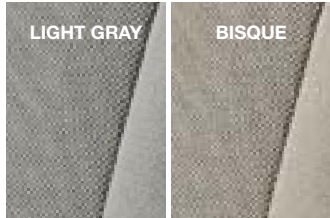

- All-weather floor mats¹
- Ashtray cup

- Wire harness
- Wireless headphones⁵
- SiriusXM Radio⁶

1. This floor mat was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat must be secured with retention hooks/clips. Do not install a floor mat on top of an existing floor mat. **2.** Performance of BLU Logic® compatible phones will vary based on phone software version, coverage and your wireless carrier. See www.blulogicupdate.com for more details. **3.** The Toyota Genuine Accessory Warranty will only apply when the installation is performed by a trained Toyota-approved installer. If the film is installed by anyone else, the Toyota "Parts Only" warranty — 12 months — will be applicable instead. Please see dealer for details. **4.** Available for vehicles with factory remote keyless entry. **5.** See footnote 16 in Disclosures section. **6.** See footnote 5 in Disclosures section.

Packages and Options

L

Towing Prep Package³⁶ — includes 3500-lb. towing capacity, engine oil cooler, heavy-duty radiator and fan

LE

Towing Prep Package³⁶ — includes 3500-lb. towing capacity, engine oil cooler, heavy-duty radiator and fan

Display Navigation⁹ with Entune^{®10} — includes 6.1-in. high-resolution touch-screen with split-screen capability and integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM Radio⁵ capability (additional hardware and subscription required), HD Radio^{™12} with iTunes[®] Tagging;¹³

auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone book access, advanced voice recognition and music streaming via *Bluetooth*^{®8} wireless technology

Anti-theft system with alarm and engine immobilizer³⁴

SE

SE Premium Package with Entune^{®10} — includes Blind Spot Monitor (BSM)³¹ with Rear Cross-Traffic Alert (RCTA)³² Dual-View Entertainment Center¹⁵ with 16.4-in. display, RCA jacks, two 120V AC power outlets, remote and two wireless headphones;¹⁶ power tilt/slide moonroof with sunshade and Display Navigation⁹ with Entune^{®10} — includes 6.1-in. high-resolution touch-screen with split-screen capability and integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM Radio⁵ capability (additional hardware and subscription required), HD Radio^{™12} with iTunes[®] Tagging;¹³ auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone book access, advanced voice recognition and music streaming via *Bluetooth*^{®8} wireless technology

Display Navigation⁹ with Entune^{®10} and Blind Spot Monitor (BSM)³¹ — includes Blind Spot Monitor (BSM)³¹ with Rear Cross-Traffic Alert (RCTA)³² 6.1-in. high-resolution touch-screen with split-screen capability and integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM Radio⁵ capability (additional hardware and subscription required), HD Radio^{™12} with iTunes[®] Tagging;¹³ auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone book access, advanced voice recognition and music streaming via *Bluetooth*^{®8} wireless technology

Power tilt/slide moonroof with sunshade

XLE

Entertainment Package — includes Dual-View Entertainment Center¹⁵ with 16.4-in. display, RCA jacks, two 120V AC power outlets, remote and two wireless headphones¹⁶

XLE Navigation Package with Entune^{®10} — includes Smart Key System²⁰ on all doors with Push Button Start and remote illuminated entry, chrome-accented outside door handles with touch-sensor lock/unlock feature, rear parking assist sonar and Display Navigation⁹ with Entune^{®10} — includes 6.1-in. high-resolution touch-screen with split-screen capability and integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM Radio⁵ capability (additional hardware and subscription required), HD Radio^{™12} with iTunes[®] Tagging;¹³ auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone book access, advanced voice recognition and music streaming via *Bluetooth*^{®8} wireless technology

XLE Premium Package — includes Dual-View Entertainment Center¹⁵ with 16.4-in. display, RCA jacks, two 120V AC power outlets, remote and two wireless headphones;¹⁶ Voice-Activated Touch-Screen DVD Navigation System⁹ — includes 7-in. high-resolution touch-screen, Panorama Camera¹¹ including integrated backup camera¹¹ display with two views (regular and wide-angle) and on-screen backup guides, JBL[®] AM/FM 4-disc CD changer with MP3/WMA playback capability, ten speakers including subwoofer, SiriusXM Radio with NavTraffic^{™5} with 90-day trial, auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity, auto sound leveling, hands-free phone capability and music streaming via *Bluetooth*^{®8} wireless technology, Smart Key System²⁰ on all doors with Push Button Start and remote illuminated entry, chrome-accented outside door handles with touch-sensor lock/unlock feature, rear parking assist sonar and Safety Connect^{®22}

Blind Spot Monitor (BSM)³¹ with Rear Cross-Traffic Alert (RCTA)³²

LIMITED

Limited Premium Package — includes Dual-View Entertainment Center¹⁵ with 16.4-in. display, RCA jacks, two 120V AC power outlets, remote and two wireless headphones;¹⁶ Voice-Activated Touch-Screen DVD Navigation System⁹ — includes 7-in. high-resolution touch-screen, Panorama Camera¹¹ including integrated backup camera¹¹ display with two views (regular and wide-angle) and on-screen backup guides, JBL[®] AM/FM 4-disc CD changer with MP3/WMA playback capability, ten speakers including subwoofer, SiriusXM Radio with NavTraffic^{™5} with 90-day trial, auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity, auto sound leveling, hands-free phone capability and music streaming via *Bluetooth*^{®8} wireless technology

Limited Convenience Package — includes High Intensity Discharge (HID) headlights with Automatic High Beam² and rain-sensing washer-linked variable intermittent windshield wipers

Advanced Technology Package^{18,38} — includes Dynamic Radar Cruise Control (DRCC)¹⁹ Pre-Collision System (PCS)³⁰ Vehicle Dynamics Integrated Management (VDIM)²⁶ and Hill Start Assist Control (HAC)³³

For more information about our available audio systems, as well as *Bluetooth*[®]-compatible⁸ features, please contact your local Toyota dealer.

TOYOTA FINANCIAL SERVICES

Toyota Rewards Visa[®]

Toyota helps you get more out of every dollar you spend. By rewarding you for every purchase you make, the Toyota Rewards Visa[®] adds even more value to doing the things you love.

Turn everything you buy into points to redeem toward parts, accessories or an eligible vehicle purchase or lease at your Toyota dealer. Earn 5 points for every \$1 spent at participating Toyota dealers and 1 point for every \$1 spent everywhere else Visa is accepted.*

Visit www.toyotarewardsvisa.com for complete details.

Toyota Financial Services (TFS)[†] is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points earned are based on net purchases. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The creditor and issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank. Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

[†]Toyota Financial Services is a service mark for Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty. You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Warranty and Maintenance Guide* or see your Toyota dealer.

See numbered footnotes in Disclosures section.

DISCLOSURES

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See *toyota.com* for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. 2. The automatic high beam system can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. See *Owner's Manual* for details. 3. Models equipped with All-Wheel Drive replace standard wheels and tires with 18-in. 10-spoke machine-finished alloy wheels with P235/55RF18 run-flat tires and do not include a spare tire. 4. AWD models only. 5. XM services require a subscription after trial period, and are sold separately or as a package. **Subscriptions governed by SiriusXM Customer Agreement; see www.siriusxm.com. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 6. May not be compatible with all mobile phones, MP3/WMA players and like models. 7. iPod® is a registered trademark of Apple Inc. All rights reserved. 8. The *Bluetooth®* word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. Other trademarks and trade names are those of their respective owners. The *Bluetooth®* wireless technology phones listed on toyota.com have been tested for compatibility with Toyota vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Toyota. 9. Availability and accuracy of the information provided by the navigation system or any XM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Entune® app updates do not include navigation updates. Navigation updates are available at an additional cost from your local Toyota dealer. See your *Navigation System Owner's Manual* or contact XM for details. 10. Always drive safely, obey traffic laws and focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. Apps identified by "TM" or "®" are trademarks or registered trademarks of their respective companies. For enrollment, cost and more details, see toyota.com/entune. 11. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 12. HD Radio™ Technology manufactured under license from iBiquid Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquid Digital Corp. 13. iTunes® Tagging is a registered trademark of Apple Inc. All rights reserved. 14. The backup camera uses the navigation system display on vehicles so equipped. 15. A single-disc DVD player is standard on vehicles equipped with the Dual-View Entertainment Center. A separate DVD player or compatible game system utilizing the center console's video/audio inputs is required in order to use the split-screen function. 16. Headphones are for passenger use only. Do not use while operating vehicle. 17. Do not use the ottoman feature when the vehicle is in motion. The ottoman feature should only be used when the vehicle is stationary. If the ottoman feature is in use during an accident the lap belt may slide past the hips. This could also result in restraint forces being applied directly to the abdomen or your neck may contact the shoulder belt, increasing the risk of death or serious injury. See your *Owner's Manual* for further information. 18. Not available on AWD models. 19. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. 20. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 21. HomeLink® is a registered trademark of Johnson Controls, Inc. 22. Available on select Toyota models. Contact with the Safety Connect® response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency service support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect®-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 23. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 24. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 25. Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. 26. Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 27. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your *Owner's Manual* for further information/warnings. 28. Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 29. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. 30. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors such as speed, driver input and road conditions. See your *Owner's Manual* for further information. 31. Do not rely exclusively on the Blind Spot Monitor to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are several limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, please see the *Owner's Manual*. 32. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see your *Owner's Manual*. 33. Hill Start Assist Control (HAC) is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 34. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or Smart Key fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or Smart Key fob, it can be costly to replace. If you lose a key or Smart Key fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 35. Cargo and load capacity limited by weight and distribution. 36. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with new SAE J2807 method. 37. 2013 EPA-estimated mileage. Actual mileage will vary. 38. Requires Convenience Package.

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.

For Toyota Mobility program details, go to www.toyota.com/mobility or call the Toyota Customer Assistance Center at 1-800-331-4331
