

SIENNA 09

US-SE09-1-A

moving forward

**BEFORE WE PUT THE FIRST SIENNA TOGETHER,
WE MET WITH FAMILIES LIKE YOURS. WE TALKED
ABOUT WHAT YOU WANT FROM YOUR MINIVAN:
MORE VALUE. MORE VERSATILITY AND SAFETY
FEATURES. MORE TECHNOLOGY. MORE GOOD
STUFF, FOR LESS GREEN STUFF. OUR REPLY?
THE 2009 TOYOTA SIENNA. MOVING FORWARD.**

Limited shown in Silver Shadow Pearl.

US-SE09-2-A

Want to design the ideal minivan? Start by talking to families. Hop a ride to school, carpool to practice, and hit the road for summer vacation. Spend the time, and you'll learn exactly

1. See footnote 8 in Features section.

how families spend their money: wisely. Which is why Sienna doesn't make you choose the top-of-the-line model just to get an advanced feature like Bluetooth^{®1} wireless technology.

Slide behind the steering wheel and settle into the driver's seat: Sienna puts you firmly in command. No matter which model you choose – CE, LE, XLE or Limited – your Sienna was designed to make the instruments and gauges clear, concise and logical. And with its available Bluetooth®1 wireless technology, Sienna helps make things even easier. You can voice-activate the available DVD navigation system2,3 and compatible Bluetooth®1-enabled cell phones.

US-SE09-3-A

DID YOU KNOW?
America's Interstate Highway System has approximately 47,000 miles of roadway, 14,500 interchanges, 55,500 bridges and 82 tunnels. There, now you're ready for that road trip.

Limited interior shown in Stone with available Extra Value Package #2.

US-SE08-4-A

TILT/TELESCOPIC STEERING WHEEL

Sienna features a standard tilt/telescopic steering wheel. On Sienna Limited, it's leather-wrapped, too, with wood-grain-style trim. And on Sienna LE, XLE and Limited, there are fingertip controls for the audio system. **US-SE08-5-A**

SIENNA CONVENIENCE

US-SE09-4-A

DVD NAVIGATION SYSTEM2,3 WITH BACKUP CAMERA4

A backup camera is included with the available touch-screen DVD navigation system. Put Sienna in Reverse, and it automatically shows what the camera sees immediately behind you. Controls for the JBL Synthesis® 10-speaker audio system are also on the touch-screen. And to let you enjoy hands-free phone capabilities, Bluetooth®1 technology is integrated into the system.

US-SE07-18-B

1. See footnote 8 in Features section. 2. See footnote 13 in Features section. 3. Available on XLE and Limited. Not available on CE or LE. 4. See footnote 14 in Features section.

BLUETOOTH®1

Sienna doesn't demand you choose only the top-of-the-line model to get the convenience of Bluetooth® wireless technology. With Sienna, it's available on many of our more affordable models.

Kids today have it pretty good. Consider everything our Sienna offers to cater to their needs: An available rear-seat DVD entertainment system¹ with 9-inch display, 115V power outlets,¹ three-zone automatic climate control,² standard sliding door power windows, auxiliary audio jack, available satellite radio capability,³ and 14 cup and bottle holders. Gee, maybe kids have it too good.

US-SE08-8-B

Limited interior shown in Stone with available Extra Value Package #2. (2008 interior shown, 2009 model will vary.)

US-SE08-7-B

US-SE08-6-A

REAR-SEAT DVD ENTERTAINMENT SYSTEM¹

Families told us this was one feature they considered a necessity, not a luxury. So we made our rear-seat DVD entertainment system, complete with 9-inch display and wireless headphones⁵, available not only on XLE and Limited, but the more affordably priced LE.

1. Available on LE, XLE and Limited. Not available on CE. 2. Standard on XLE and Limited. Not available on CE or LE. 3. See footnote 12 in Features section. 4. Standard on Limited. Available on LE and XLE. Not available on CE. 5. Headphones are for passenger use only. Do not use while operating vehicle.

US-SE09-5-A

JBL SYNTHESIS^{®4}

With ten speakers placed strategically throughout the cabin, the available JBL Synthesis[®] audio system makes your favorite tunes sound full, rich and powerful.

US-SE08-9-A

AUXILIARY AUDIO JACK

Bring your personal music collection along anytime: Every Sienna comes with a standard auxiliary audio jack. iPod[®] accessory not included. iPod[®] is a registered trademark of Apple Inc.

Every 8-passenger Sienna model comes standard with a Front and Center™ second-row seat. Slide it forward to put your youngest within easy reach of the front passenger seat. On 7-passenger Sienna models, the indexing second-row captain's chairs¹ are even removable, for whenever you need the open space. And all Sienna models come standard with the 60/40 Split & Stow 3rd Row™ seat.

US-SE04-13-G

US-SE08-10-B

SEVEN OR EIGHT PASSENGERS?
Opt for a 7-passenger version with captain's chairs that can move together, or the 8-passenger model with the Front and Center™ second-row seat. There's a Sienna for all the combinations your life will take.

Limited interior shown in Stone with accessory floor mats. (2008 interior shown, 2009 model will vary.)

VERSATILITY AT YOUR CONVENIENCE

Keep two kids strapped in and fold 40%; or have one passenger and fold 60% for more storage; or fold the entire third row into the floor in two smooth movements. On Sienna Limited 2WD models, an available power folding/adjustable 60/40 Split & Stow 3rd Row™ seat automatically transforms itself to suit the situation.

US-SE07-7-D

¹. Seven-passenger models only.

US-SE06-8-C

FRONT AND CENTER™ SECOND-ROW SEAT
The sliding Front and Center™ second-row seat on 8-passenger Sienna models makes it easy to seat a child within reach of the front passenger seat.

US-ISE04-9-B

Grocery cart in one hand, child in the other: What's a parent to do? Sienna was designed to lend you lots of help at every turn. As you approach your Sienna, simply click on the keyless remote device and the doors obey, as if by magic, thanks to an available power rear door¹ and available dual power sliding doors². Now if they just had a button for "bath time."

US-SE08-11-A

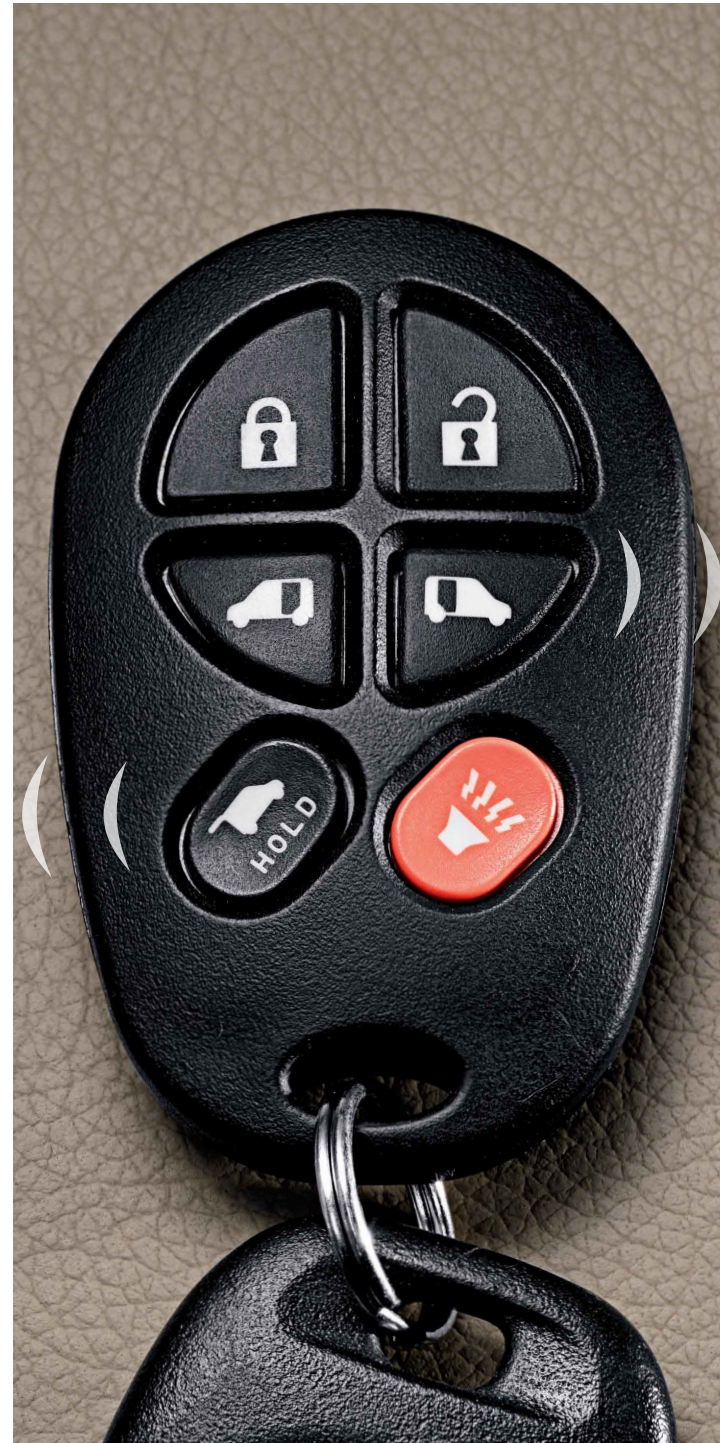

XLE shown in Silver Shadow Pearl with available Extra Value Package #4. (2008 interior shown, 2009 model will vary.)

POWER REAR DOOR¹

Use the keyless remote device to unlatch and lift the available power rear door. Along with Sienna's low lift-over height, the power rear door makes getting to Sienna's spacious cargo³ area easy. And with the third row up, a deep storage well is revealed.

US-SE08-12-A

US-SE08-13-A

Limited shown in Silver Shadow Pearl with available Extra Value Package #1.

REMOTE KEYLESS ENTRY SYSTEM

When equipped, Sienna's keyless remote lets you electrically open either side door or the power rear door – and close them with one touch, too.

DUAL POWER SLIDING DOORS

Sometimes one side is safer for loading your children than the other; now you have control. With the dual power sliding doors, you can open either side door, one at a time.

1. Standard on XLE and Limited. Not available on CE or LE. 2. Standard on XLE and Limited. Available on LE. Not available on CE. 3. See footnote 3 in Specifications section.

Toyota's Star Safety System™ is a combination of five safety features standard on every Sienna: Vehicle Stability Control (VSC),¹ Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD) and Brake Assist.² And with available All-Wheel Drive (AWD), you'll have the confidence that comes from knowing you're making the most of Sienna's power and agility.

VEHICLE STABILITY CONTROL (VSC)¹ AND ANTI-LOCK BRAKE SYSTEM (ABS)
 Vehicle Stability Control (VSC) counteracts front or rear wheelslip during turns to help restore driving control. The Anti-lock Brake System (ABS) avoids wheel lockup and helps maintain steering control.

US-ISE09-1-A

US-SE08-15-A

US-SE08-16-A

ALL-WHEEL DRIVE (AWD)
 The enhanced traction of All-Wheel Drive (AWD) is available on Sienna LE, XLE and Limited. When a wheel slips, the system employs Vehicle Stability Control (VSC)¹ to transfer torque to the proper drive wheels without the use of a limited-slip differential.

MUDDY SURFACE
 If the driver applies excessive pressure to the accelerator, Traction Control (TRAC) helps prevent wheel slippage on all kinds of surfaces.

GRAVEL SURFACE
 On almost any road surface, standard Electronic Brake-force Distribution (EBD) helps optimize the amount of brake force sent to each wheel. Sensors read the distribution of cargo and passengers in Sienna and send an appropriate brake force to each wheel.

WET SURFACE
 The computer-controlled Anti-lock Brake System (ABS) modulates brake pressure when braking hard or when braking on a slippery surface, to help avoid wheel lockup and help maintain steering control.

SLUSHY SURFACE
 In winter conditions, every Sienna comes prepared: Vehicle Stability Control (VSC)¹ helps prevent the vehicle from slipping sideways as a result of losing traction while cornering.

FUEL EFFICIENT – AND POWERFUL
 Whether stretching that gallon with an EPA-estimated 23 mpg highway rating,^{3,4} or merging onto the freeway with a full carpool, Sienna's 266-hp 3.5-liter DOHC 24-valve dual independent VVT-i V6 engine does it all, automatically adjusting valve timing for both economy and power.

1. See footnote 17 in Features section. 2. See footnote 18 in Features section. 3. 2WD models. 4. See footnote 7 in Specifications section.

You put a roof over their heads. How about we put airbags on three sides? Standard on every Sienna is the Advanced Airbag System¹ with driver and front passenger airbags, front seat-mounted side airbags and side curtain airbags that cover all three rows. Also standard is an Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD) and Brake Assist.²

US-SE04-7-F

**"SEES" IN THE DARK**

From front to back, Sienna encompasses a comprehensive attitude toward safety, including (A) available front and rear Intuitive Parking Assist,³ (B) available High Intensity Discharge (HID) headlamps,⁴ (C) front energy-absorbing crumple zone and (D) energy-absorbing steering column.

VAN OF STEEL

Peel back Sienna and you'll find more safety technology, like the use of (E) reinforced steel in a unitized body with high-tensile-strength steel body panels, (F) front seat-mounted side airbags¹ and (G) driver and front passenger Advanced Airbag System¹

READY FOR WINTER WONDERLAND

For colder climates, (H) available color-keyed power folding, memory, heated outside mirrors with puddle lamps and turn-signal indicators,⁵ and (I) an available windshield wiper de-icer grid help keep your view clear.

KIDS COME FIRST

Your passengers are also looked after with such features as (J) child seat lower anchors and top tether anchors (LATCH) for four seating positions, (K) side-impact door beams, (L) available dual power sliding doors⁶ and rear door⁶ with jam protection, (M) 3-point seatbelts in all seating positions and (N) three-row side curtain airbags¹

BRAKING THAT'S QUICKER THAN YOU ARE

Sienna's safety is inside and out, including (O) an Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD) and Brake Assist,² (P) Tire Pressure Monitor System (TPMS),⁷ (Q) available All-Wheel Drive (AWD) with run-flat tires,⁸ and (R) rear energy-absorbing crumple zone.

1. See footnote 19 in Features section. 2. See footnote 18 in Features section. 3. Standard on Limited, available on XLE. Not available on CE or LE. 4. Available on Limited only. 5. Standard on XLE and Limited. Available on LE. Not available on CE.

6. Standard on XLE and Limited. Not available on CE or LE. 7. See footnote 21 in Features section. 8. See footnote 5 in Specifications section.

PEOPLE SAFETY ENVIRONMENT FUTURE

US-TM08-137-A

US-TM08-138-A

US-TM08-139-A

US-TM08-140-A

US-TM08-141-A

US-TM08-142-A

There's a lot of work to be done in order to make the future a better one for all of us. At Toyota, we recognize the role we play ultimately can be a very large one. It involves moving forward on many fronts, from education and community, to a wide range of initiatives aimed at reducing our environmental footprint. Helping

to make driving safe is one of our top priorities. Since 2004, Toyota has offered a free defensive driving program to more than 10,000 teens and adults in 13 cities. Students learn everything from skid control to the consequences of driving while distracted. For more on our safety programs, visit toyotateendrivers.com

Our philanthropic efforts help civic, educational and social support organizations of all kinds improve our schools, neighborhoods and environment. The Toyota International Teacher Program sends U.S. educators to the Galapagos Islands and Costa Rica to share ideas on environmental stewardship.

Closer to home, we're hard at work on ideas for reducing our own impact on the environment. Our holistic approach involves using energy and resources efficiently, improving air quality, encouraging recycling and being a good neighbor. Since the first-generation Prius was introduced in 2000, we've added Highlander Hybrid

and Camry Hybrid to our hybrid offerings. While our 13 assembly plants in the U.S. produce more than 1.5 million vehicles a year, our plants are driving hard toward zero landfill waste. A Toyota dealership in Texas is the first auto dealership in the U.S. to earn LEED Gold certification from the U.S. Green Building Council.

The group also certified our South Campus Sales Headquarters of Toyota Motor Sales, U.S.A., in Torrance, California, as one of the largest "green" buildings in the U.S. To learn more about Toyota, its commitment to the environment and its involvement in local communities, visit toyota.com/whynot

S = Standard **O = Optional** **- = Not Available** **P = Feature is available as part of an option package.**

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle with no or different options, contact your dealer to check for current availability or the possibility of placing a special order. 2. Not available on AWD models. 3. Standard on AWD models. 4. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. 5. 8-passenger seating is not available on LE AWD, XLE and Limited. 6. Limited 2WD model only. 7. Dynamic Laser Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. 8. The Bluetooth[®] technology phones listed on toyota.com have been tested for compatibility with Toyota vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Toyota. 9. Auto up/down with jam protection standard on LE, XLE and Limited. 10. HomeLink[®] is a registered trademark of Johnson Controls, Inc. 11. Thirteen cup holders with removable center console. 12. Satellite radio requires XM- or Sirius-compatible receiver and monthly service fee. See your Toyota dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com or www.sirius.com. Available only in the 48 contiguous United States. 13. The navigation system is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic updates available at an additional cost. See your *Navigation System Owner's Manual* for further details. 14. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 15. When equipped with the DVD navigation system, the standard 6-disc in-dash CD changer is replaced with a 4-disc in-dash changer. 16. Headphones are for passenger use only. Do not use while operating vehicle. 17. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 18. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 19. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your *Owner's Manual* for further information/warnings. 20. Adjustable seatbelt anchor on driver-side second-row seat (7-passenger models), and on second-row outboard seats (8-passenger models). 21. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. 22. Available with Fog Lamp Package on XLE 2WD, or as a stand-alone option on LE AWD and XLE AWD.

1. See footnote 18 in Features section. 2. Standard on AWD. 3. Cargo and load capacity limited by weight and distribution. 4. See footnote 4 in Features section. 5. Run-flat tire technology is designed for limited emergency use only. If air pressure is lost, vehicle speed must remain below 55 miles per hour; cornering, braking and accelerating must be done with extreme caution; and the tire should be replaced within 100 miles. Please see your Toyota dealer for details. 6. AWD models come standard with run-flat tires and do not come equipped with spare tire. 7. 2009 EPA-estimated mileage. Actual mileage will vary. 8. Available on CE and LE. 9. See footnote 12 in Features section. 10. Available for vehicles with factory security. 11. Headphones are for passenger use only. Do not use while operating vehicle.

TOYOTA FINANCIAL SERVICES*

Now that you're thinking about a Toyota, you may also want to consider leasing or financing the purchase of your new vehicle through your participating dealer and Toyota Financial Services (TFS). TFS offers a variety of high-quality finance and lease products to complement your lifestyle. At TFS we realize that purchasing or leasing a vehicle is a major commitment and we have developed some of the finest customer-focused finance and insurance solutions to help protect your interests over time. And in most cases, you may include your cost for these products in your finance

or lease contract. Few companies can match the expertise, customer care and total value of TFS. Ask your Toyota dealer or go to www.toyotafinancial.com for details.

*Toyota Financial Services is a service mark of Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc. Products are available to qualified customers through your participating Toyota dealer and Toyota Financial Services.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Owner's Warranty Information* booklet for details.

Accessories: For accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Owner's Warranty Information* booklet or see your Toyota dealer.

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of printing, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only.

For Toyota Mobility program details, go to www.toyota.com/mobility or call the Toyota Customer Assistance Center at 1-800-331-4331

Our eyes are always on the road ahead. Striving to find ways to help you be safe. Go farther on a tank of gas. To help the earth go further on its limited resources. Moving Forward is embedded in our DNA. It's shared by our dealers, and ultimately, inspired by our customers. toyota.com 1-800-GO-TOYOTA

FOCUS ON SUSTAINABILITY This brochure is printed on Sappi's Opus Gloss environmentally responsible paper. 100% of the electricity used to manufacture this paper has been generated from certified renewable energy sources. Opus Gloss uses 30% post-consumer recovered fiber and is FSC (Forest Stewardship Council) certified. This certification assures that this brochure was printed on paper from well-managed forests following FSC requirements through the entire chain of custody – from the tree, to the printer, to the consumer. It is one of the most environmentally responsible coated papers available today.

Toyota's core printing partners embrace responsible forestry management through either FSC or SFI certifications. These printers practice recycling policies for hazardous and non-hazardous materials and print with inks that reduce volatile organic compound (VOC) emissions into the atmosphere. Additionally, one of Toyota's print partners uses renewable wind energy for 100% of its electricity needs, while another generates all its own electrical power and is the only Air Quality Management District (AQMD) certified, "totally enclosed" commercial printing facility in the U.S. with virtually zero VOC emissions.
